Already a large number of fans have snapped up the granite stones which measure 300mm by 300mm.

The stones will be similar in appearance to the heritage stones laid around Brighton and Hove Albion's new American Express Community Stadium, a scheme which is also run by Parker Building Supplies. Parkers are responsible for the supply, production and inscription of the stones at each venue.

Leaflets were recently sent out in the post offering fans the opportunity to buy the stones which will be sited outside the newly developed South West stand containing the club shop and reception.
