

## Supplier Price Increases – February

Our industry continues to face regular and significant price increases caused by all kinds of issues. From raw material shortages to production problems, shipping container prices and more.

Our supplier relationships are stronger than ever, and we're working with existing and new suppliers to maintain access to the materials you need and to keep prices fair and competitive. We'll continue to negotiate hard on your behalf and we are trying our very best to protect you wherever we can.

We know how important it is that you're kept up to date with significant price increases to help you plan ahead. Below is the list of the latest price updates by product type. You can also stay up to date on our websites: [parkerbs.com/supplier-updates](http://parkerbs.com/supplier-updates), [chandlersbs.co.uk/supplier-updates](http://chandlersbs.co.uk/supplier-updates), [fairalls.uk/supplier-updates](http://fairalls.uk/supplier-updates) and [chandlersroofing.co.uk/supplier-updates](http://chandlersroofing.co.uk/supplier-updates) (you will be able to see a roofing version here).

We are sometimes informed of increases at very short notice, and so they might not have made this list. If you have any questions on these increases or want to confirm prices for an upcoming project, please speak with your local branch, who will be happy to help.
